495	[nail_des]	<p>Baby's First Years will be inviting families back to the university in the future, and we want to ask you your opinion about one of the things we are considering doing with families. As part of a future visit, we are considering asking moms if they would be okay with us taking clippings of fingernails or toenails. We are interested in doing this because fingernails and toenails can tell us about the body's response to stress. If we decide to collect this measure in the future, we would tell moms a lot more about how nail clippings tell us about stress, before we gave moms the option to participate or not. For now, we are trying to understand how many moms would not want us to take a clipping because it might ruin a manicure or pedicure or make their nails too short:</p> <p>* Los Primeros Años del Bebé volverá a invitar a familias a la universidad en el futuro, y queremos pedirle su opinión sobre una de las cosas que estamos considerando hacer con las familias. Como parte de una futura visita, estamos considerando preguntar a las madres si les parecería bien que les cortáramos las uñas de las manos o de los pies. Nos interesa hacerlo porque las uñas de las manos y de los pies pueden informarnos sobre la respuesta del cuerpo al estrés. Si decidimos recoger esta medida en el futuro, informaríamos mucho más a las madres sobre el estrés antes de darles la opción de participar o no. Por ahora, estamos tratando de entender cuántas mamás no querrían que les cortáramos las uñas porque podría arruinarles la manicura o la pedicura o hacerles las uñas demasiado cortas:*</p>	descriptive
